Foreword

This compilation is the result of a sincere desire to render a public service.

It has been published for the purpose of affording an easy way through the maze of regulations embodied in the ordinances passed by the City Council of the City of Chicago during the past eight years.

It is not an index to all City ordinances. For those regulations contained in the sections of The Chicago Code of 1911 which have not been amended or repealed, reference must be had to the index printed in the bound volumes of that Code.

If the indexes and tables herewith presented result in a saving of time to those who must seek information concerning the ordinance regulations of the City of Chicago, I shall feel that the work has been worth the effort.

JAMES T. IGOE,
City Clerk.
